

## WHAT WE DO

1

### PREVENTION & IDENTIFICATION TRAINING

- Law enforcement, first responder, and military in-person training
- Community based online training available at IAmOnWatch.org
- Corporate training

2

### SURVIVOR EMPOWERMENT

- Rescue Operations / Escape
- Emergency transport and services
- Skilling of survivors with professional mentors

3

### ACCELERATE SAFE HOUSE DEVELOPMENT

- Mentor new organizations to launch safe housing programs
- Fund the national expansion of safe house capacity
- Unite the anti-trafficking industry to drive collaboration & innovation
- Consult for State leaders to develop and enhance their state's coordinated response to trafficking

SAFE HOUSE  
PROJECT

107 S. West Street, Suite 720 | Alexandria, VA 22314

## OUR IMPACT TO DATE

1

### PREVENTION & IDENTIFICATION TRAINING

- 6,000 law enforcement, first-responders, and military personnel trained
- 28K Community members trained through OnWatch
- Trafficking training deployed to 160,000 employees.
- 500,030 educated through podcast speaking engagements

2

### SURVIVOR EMPOWERMENT

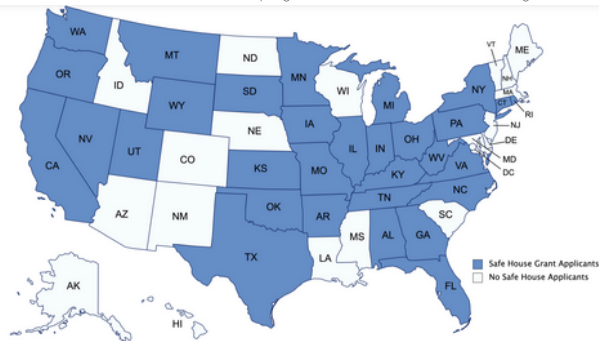

- 178 American survivors served through Rescue/ Escape Operations & Emergency Services
- 3,700+ hours deployed in Survivor Skilling & Mentorship

3

### ACCELERATE SAFE HOUSE DEVELOPMENT

- 3,500 hours deployed in mentoring new organizations to launch safe housing programs
- 174 new American Safe Housing opportunities funded.

This map represents 95 programs seeking funding or mentorship from SHP to launch new restorative care programs for survivors of sex trafficking

## THE PROBLEM

When Safe House Project began in 2017, here is the problem we were facing:

300,000

In 2017 the Department of Justice reported that there were hundreds of thousands of American children trafficked for sex in the United States each year

1%

Victim identification of the 300k children trafficked was at 1%. That means only 1% were ever seeing rescue or exit from trafficking.

80%

Without restorative care upon their rescue or exit from trafficking, 80% of trafficked individuals ended up back in traffickers' hands.

100

Those escaping trafficking needed a safe place to heal but in 2017, there were only 100 beds in restorative care homes for minors in America.

## OUR MISSION

Safe House Project exists to combat domestic sex trafficking by increasing victim identification of trafficked individuals above 1% through education, build the national capacity of restorative care opportunities through funding and mentorship, and empower a survivor's path to freedom through economic empowerment.
